

Super Zinc

Description

Product number B011 - 100 tablets

Well absorbable form of zinc. In this zinc product from BioVitaal, zinc is bound in a methionine molecule. This stable compound is virtually insensitive to factors in the gastrointestinal tract that can adversely affect the absorption of zinc, such as phytates and fibers.

The mineral zinc is a cofactor (excipient) of various enzymes and proteins and thus contributes to:

- Normal protein synthesis
- The protection of cells against oxidative stress
- A normal metabolism of vitamin A
- The maintenance of normal vision
- The normal functioning of the immune system
- Normal DNA synthesis and zinc play a role in the cell division process
- Normal fertility and reproduction
- The maintenance of normal blood levels of testosterone
- A normal metabolism of carbohydrates, fatty acids and macronutrients
- Normal acid-base metabolism
- The maintenance of normal hair, bones, skin and nails

Ingredients and % Reference Intake per tablet:

L-zinc monomethionine 125 mg (= 25 mg elemental zinc, 250% RI)

Fillers: Maltodextrin (from corn), microcrystalline cellulose, rice starch and vegetable magnesium stearate. **Anti-caking agent:** silicon dioxide. This product contains no gluten, lactose or milk proteins.

Usage and warnings: Adults take 1 tablet per day as a dietary supplement. Do not exceed the recommended dosage and keep out of reach of children. Do not use in case of hypersensitivity to one of the ingredients in this product. A dietary supplement is not a substitute for a balanced diet.
