

Neptune Krill oil 500 mg

Description

Product number B053 - 100 capsules

Now in vegetarian LiCaps!

Due to the new capsule technology, this product has slightly increased in price.

This BioVitaal product contains Krill oil of the highest Neptune quality (EKO™). Neptune Krill oil is extracted from the Antarctic Krill (*Euphausia superba*), a zooplankton. Because this krill is at the bottom of the food chain, has a short life span of 1 to 2 years and lives in clean waters of the Antarctic Ocean, Neptune Krill oil is naturally low in heavy metals, dioxins and pesticides; Neptune krill oil is tested for the presence of these substances and for cainic acid analogues such as domoic acid.

Neptune Krill oil contains omega 3 fatty acids, phospholipids (lecithin-like substances), choline and the carotenoid astaxanthin (this carotenoid also causes the deep red color of the capsules). Krill oil also contains traces of selenium and vitamins A, D and E. Krill oil contains over 15% omega 3, 9% omega 9 and 2% omega 6 fatty acids. Krill oil also contains 15 times more omega 3 than omega 6 fatty acids (15: 1 ratio). The unsaturated fatty acids are bound to phospholipids in krill oil, which contributes to their bioavailability.

The leading Canadian manufacturer of our krill oil (Neptune Technologies & Bioresources Inc.) promotes an ecologically sound and environmentally friendly catch of krill like no other and is committed to maintaining a good krill condition. A group of 25 countries has established the Commission for the Conservation of Antarctic Marine Living Resources (CCAMLR). This CCAMLR is the official international organization responsible for the management and control of krill fisheries. The CCAMLR monitors krill's biomass and ecosystem and prevents overfishing. Neptune Technologies & Bioresources Inc. fully endorses the objectives of the CCAMLR.

INGREDIENTS PER CAPSULE (LiCap):

500 mg pure Neptune krill oil, with environmentally friendly fishing technique and patented extraction process (developed by Neptune Technologies & Bioresources Inc.) extracted from Antarctic krill (*Euphausia superba*):

Phospholipids, total > 200 mg

Phosphatidylcholine 150 mg

Lysophosphatidylcholine 10 mg

Phosphatidylethanolamine 10 mg

Phosphatidylinositol 10mg

Omega 3 fatty acids, total > 150 mg

Eicosapentaenoic acid (EPA, 20: 5 n3) 75 mg

Docosahexaenoic acid (DHA, 22: 6 n3) 45 mg

Docosapentaenoic Acid (DPA, 22: 5 n3) 3 mg

Omega 6 fatty acids, total 10 mg

Omega 9 fatty acids, total > 50 mg

Naturally present trans fatty acids <0.010%

Astaxanthin 0.63 mg

Vitamin A (all-trans retinol) 50 i.e.

Also contains traces of vitamin D, vitamin E and selenium.

Capsule shell: hydroxypropyl methyl cellulose (HPMC).

USE and warnings:

Adults take 1 to 2 capsules daily, to be taken with meals. Persons with hypersensitivity to shellfish or seafood may not tolerate this product. Persons taking blood-thinning medications, should consult an expert before use. Do not use in hypersensitivity to any of the ingredients in this product. Do not exceed recommended dosage. Keep out of reach of children. A dietary supplement is not a substitute for a balanced diet.
