

Whey-Protein + Powder 500 grams

Description

Product number B076 - Whey-Protein + Powder - 500 grams

This new BioVitaal product consists for 9 / 10th part of a high-quality whey protein isolate (with 90% protein with all intact, natural whey proteins) and for 1 / 10th part of PeptoPro®. PeptoPro® is an amino acid formula developed by DSM derived from whey proteins in the form of small di- and tripeptide molecules; these small molecules can be easily absorbed in the intestine without the aid of digestion.

This product is manufactured using the most advanced method of concentrating whey proteins, namely the crossflow ultrafiltration and microfiltration. This technique ensures that the whey is separated from fats, lactose and other milk proteins at a low temperature. The proteins that contribute to muscle growth remain intact due to the low temperature.

Composition per 2 scoops of 10 grams each (20 grams total):

Whey protein isolate (contains 1% lactose or milk sugar) 20 grams of which:

L-Alanine 1.1 grams

L-Arginine 0.42 grams

L-Aspartic Acid 2.38 grams

L-Cysteine 0.54 grams

L-Glutamic acid 3.90 grams

L-Glycine 0.36 grams

L-Histidine 0.40 grams

L-Isoleucine 1.52 grams

L-Leucine 2.28 grams

L-Lysine 2.08 grams

L-Methionine 0.48 grams

L-Phenylalanine 0.64 grams

L-Proline 1.46 grams

L-Serine 1.14 grams

L-Threonine 1.62 grams

L-Tryptophan 0.40 grams

L-Tyrosine 0.62 grams

L-Valine 1.32 grams

Note: Of the amino acids listed above, 10% is present in the form of PeptoPro® (free di and tripeptides) and 90% in the form of high-quality, intact whey proteins. This product contains no additives, added sugars, gluten, or corn. May contain very minor traces of SOY.

Usage and warnings:

Dissolve the content of one level measuring spoon in a (cold) drink of your choice twice a day, unless otherwise advised by an expert. The included measuring scoop contains approximately 10 grams of powder. Do not exceed recommended dose and keep out of reach of children. Do not use in hypersensitivity to any of the ingredients in this product. A dietary supplement is not a substitute for a varied diet.
